Event at Cappgemini, Hyderabad

News Description :

An event was organized at Cappgemini, Hyderabad for giving insights to Cappgemini employees about Flex and Coldfusion technology. The event was a great success and many employees attended the event done by our group manager. Event was started with Introduction to Flex, Using Flex for RIA, Using Flex with Middleware Technologies.

After Flex session, there was a Coldfusion awaiting for the attendees. Following were the topics discussed for Coldfusion:

1. Introduction to Coldfusion
2. Building powerful web applications
3. AJAX with Coldfusion
4. Using Coldfusion Components with Flex
